EXPERIENCE

University of Utah

Salt Lake City, UT, USA

Teaching Assistant – IS 4460 Web Based Applications, David Eccles School of Business

Jun 2026 – Present

- Supporting 20+ students in an intensive 2-week Web Applications course by providing grading assistance and technical guidance in Python, Django, HTML, CSS, and JavaScript.
- Reviewing and validating course modules, labs, and instructional materials to ensure technical accuracy and functionality prior to course delivery.
- Providing individualized support to students from non-technical and minor programs, helping them understand web development concepts and successfully complete coding assignments and labs.

Exam Services Technician, University Connected Learning

Jan 2026 – Present

- Performing 50+ daily proctoring, patron support, and monitoring for online proctored exam services.
- Providing customer service and assisting faculty and students with Canvas.

Republic of Korea Special Warfare Command (ROK SWC)

Gyeonggi, South Korea

Special Operations Interpreter & Translator, Headquarters

Feb 2021 – Aug 2022

- Interpreted 20+ military operations and translated military intelligence for SOCKOR.
- Organized 10+ visits and combined training exercises with special operation teams from foreign countries (USSOCOM).
- Achieved the *Certificate of Qualification for Airborne Basic Course*.

Interpreter, Combined Joint Special Operations Liaison Element

Aug 2021 – Apr 2022

- *Appreciation Award Recipient* – Participated in Combined Command Post Training with the US Special Forces (Green Beret & AFSOC) at Osan Air Force Base (Camp Osan).

PROJECTS

- **RMU AI Agent Development Capstone** – Developing a workflow automation solution that processed Canvas student activity data, flagged inactive students, and streamlined registrar attendance review through SharePoint and Power Automate.
- **2026 Generative AI Competition** – Utilized Cursor and Supabase to build an AI-powered web system that automates request intake and routing for Children's Community Health, improving efficiency and reducing manual processing within 6 hours.
- **2025/2026 Information Systems Game Day Analytics Challenge** – Analyzed Super Bowl commercial tweets from Twitter API using Python to provide valuable insights to advertisers, including sentiment and return on ad spending.
- **Parking Permit Website** – Built a website with a responsive design by utilizing a Django-based CRUD app.
- **2025 Generative AI Competition** – Utilized Retool to build a website with a chatbot feature for Children's Step Pediatric Hospital.
- **Domo-Layton Construction Hackathon** – Utilized Domo to identify variables correlating with safety incidents across all 2023-24 Layton Construction work sites to provide KPIs and actionable insights for the management team within 48 hours.
- **Social Impact Challenge: Eccles Adobe Business Case Competition** – Utilized the Adobe Express software to design and develop a marketing campaign for Tech-moms and achieved an Adobe Badge for Small Business Social Marketing.
- **Salesforce-Eccles Ideathon: Chatbot Design and Development Competition** – Utilized the Salesforce CRM platform to design and develop a chatbot, presenting the team's solution to a panel of judges.

Certificates

- **Google Cybersecurity Professional Certificate** – Built practical skills in cybersecurity, network security, Python, Linux, SIEM, and incident response.
